

TUT-DMA Research Training and Seminar Program

Title: “The Research Process: From Design to Effective Implementation”

About the Program

The SARChI Chairs have initiated a Masters and Doctoral Research Training Academy in TUT to stimulate inter-disciplinary and inter-faculty interaction to contribute for raising the research culture of the university. All faculties and disciplines are most welcome.

As Einstein put it “It is a wonderful feeling to recognize the unity of a complex of phenomena that to direct observation appears to be quite separate things.” All the natural, human, social sciences are united by the need to create new knowledge by the application of research excellence. We need to encourage the unity of research in order to encourage the creation of the unity of knowledge. Research is the real journey to create effective knowledge.

We call upon all faculties to join the first seminar where all fields and disciplines can benefit and interactive learning and training can be promoted. The first research one day seminar that is open to all faculties in TUT.

Programs

Welcome Remarks: Prof. Mammo Muchie

SESSION 1

09:00 - 09:45	Prof Mammo Muchie: Research for Making the Unity of Knowledge
10:00 - 10:15	Discussion
